

COYOTE SKETCHES ~ DYNAMIC LINE

WHEN DRAWING ANY FOUR-LEGGED ANIMAL IN MOTION, THE KEY TO DRAWING ACCURATELY LIES IN THE DYNAMIC LINE RUNNING ALONG THE SPINE FROM EARS TO THE TIP OF THE TAIL. THE RANGE OF MOTION BEGINS HERE.

EXTREMELY SHY BY NATURE, THE COYOTE MOVES IN A MANNER THAT IS STEALTHY AND EFFICIENT; LOW PROFILE, TAIL DOWN, LONG STRIDES. A TROTTING COYOTE APPEARS TO FLOAT ALONG.
